About Calcutta

The veins in this tile have a natural, organic flow, resembling the intricate patterns found in marble or rugged stone. They appear as fine, delicate lines weaving through the surface, creating depth and a sense of movement. Some veins might be more pronounced, adding contrast, while others blend subtly into the texture, giving the tile a sophisticated, layered appearance.

About Lisbon

The color palette of these tiles mainly includes shades of cream, beige, and soft brown, which easily blend with various decorative elements, creating a sense of tranquility and stability in the environment.

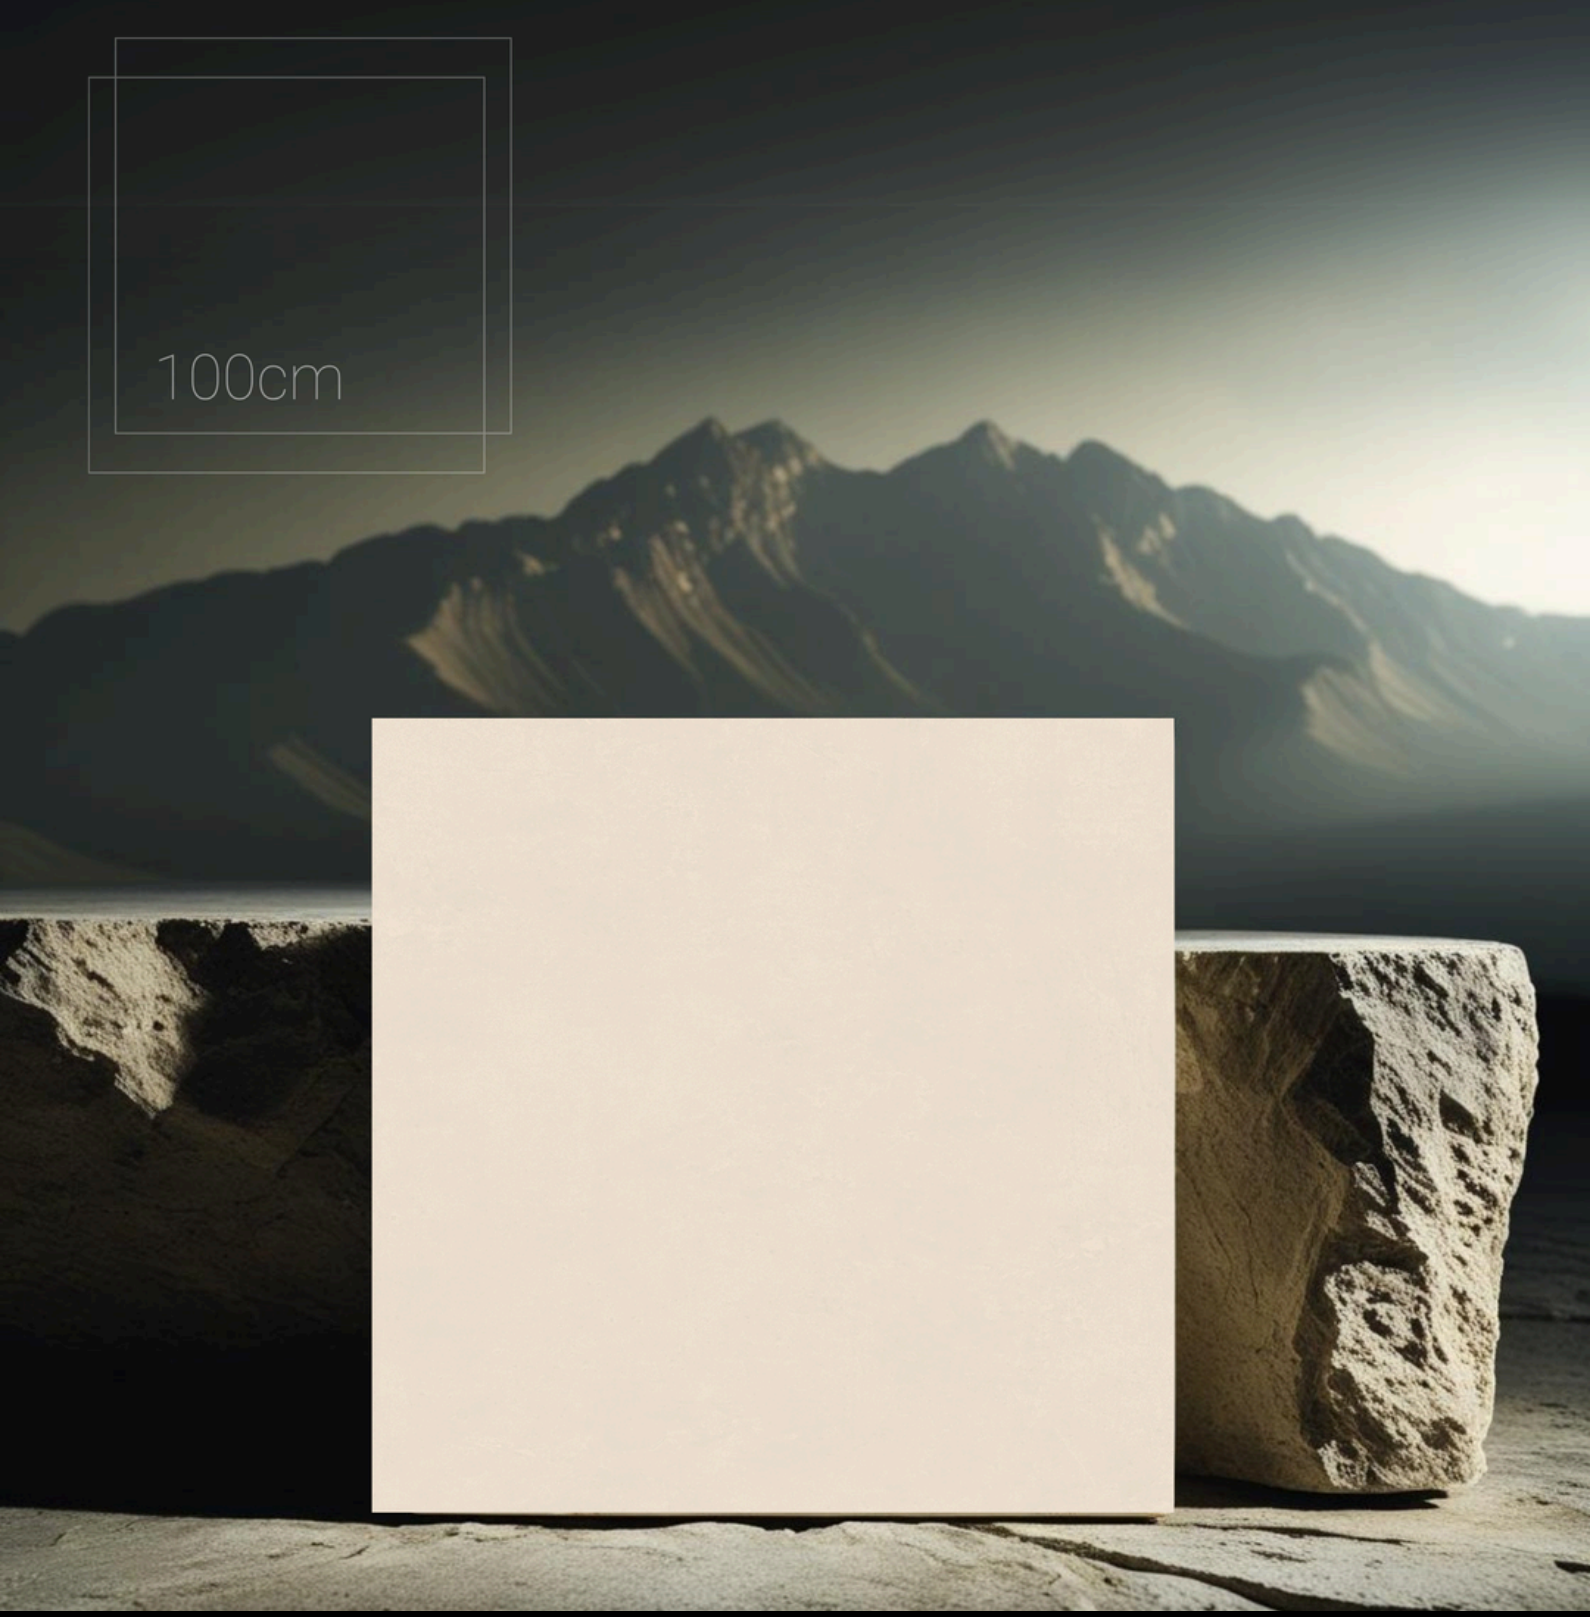

Lisbon

4 Faces

Polished
100*100

A square tile sample in a natural setting. The tile is a light beige color with a subtle texture. It is placed on a rough, grey stone surface. In the background, there are dark, jagged mountains under a clear sky. A white square frame is overlaid on the top left corner of the image, with the text '100cm' inside it.

About Sigma Matt & Polished

This surface features a beige color palette with subtle undertones of cream and earthy hues, creating a sophisticated and modern ambiance. Beige is soft, warm, and natural, and when paired with proper lighting, it enhances the space with an inviting and cozy feel. It harmonizes well with materials such as wood, natural fabrics, and warm-toned metals.

About Sigma

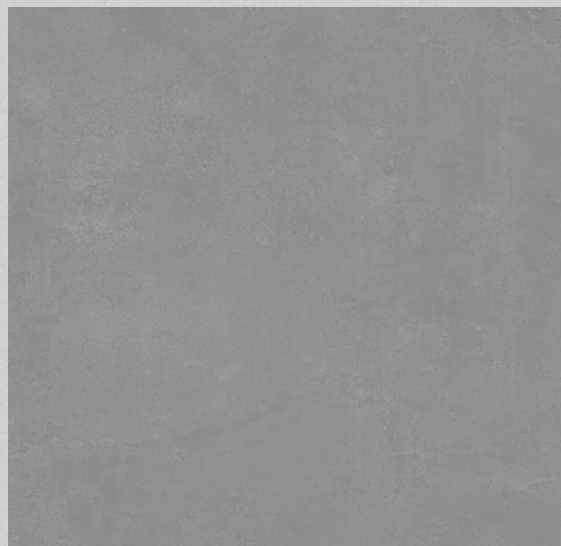

Dark Gray matt

Charcoal or dark gray brings a luxurious yet industrial feel to a space. It is typically used in larger areas or paired with warmer tones like beige and brown to create visual balance. It is also one of the most popular choices for modern and minimalist interiors. Combining it with warm wood and dark metals results in a stylish and functional aesthetic.

About Doris

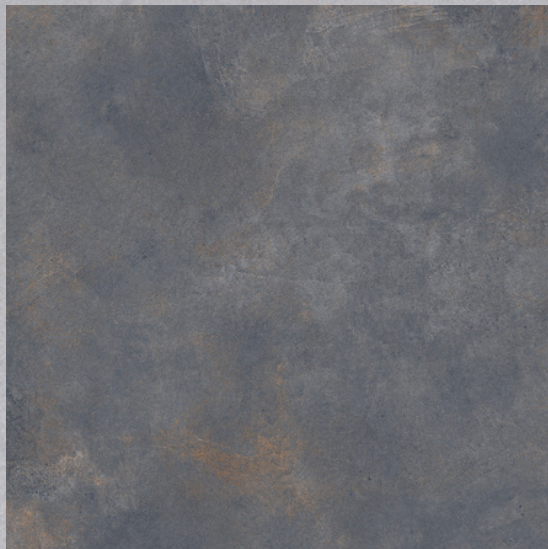

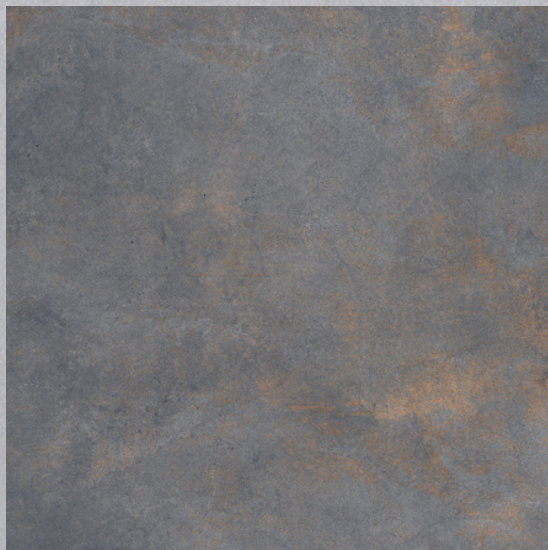

Dark & Light Gray matt

The surface of this tile features a gray color palette with subtle details and natural shading, creating a modern, industrial, and minimalist aesthetic. Some areas may have earthy shadows or warm undertones, adding a more organic feel to the space. This color combination enhances harmony with other decorative elements such as wood, stone, and natural fabrics.

100cm

About Maya Cream

The tile has a smooth and polished surface with a glossy finish. Its texture is sleek and elegant, resembling marble or onyx, with delicate, irregular veins running through it. There's a subtle depth to it, giving it a luxurious and refined appearance. If you were to run your fingers across it, you'd likely feel a cool, silky touch with barely any noticeable grain or roughness.
